

Axel Hecklau

Lecture Evolution

Further development of magic

Axel Hecklau is known as one of the most creative magic minds of Germany. He lectured more than 200 times in more than 15 countries worldwide (including at FFFF, the Magic Castle and at FISM).

For the very first time he will lecture in Canada. He will present his latest creations and improved effects for stage, parlour and close-up situations.

His routines are well known for strong impact, simplicity and cleverness.

e.g. Just a cup. It looks like a Chop cup with a dice cup and a die - but it isn't.

Because of his different technique he is able to do more astonishing moves and gets more flexibility during the performance. Everything is examinable at any moment, instant reset. The perfect routine for table hopping and stand up shows.

Look forward to his small pack / play big stage card routine „Destiny“ or the napkin rose 2.0. His latest release will be MIND VISIT his advanced version of the Tossed out deck, in which he is able to name all spectators cards individually. - a mind reading piece par excellence.

These are only a few examples from this lecture fully packed with practical magic.

- Get inspired.
